

I support media diversity

Re.Docket No. 02-277: We do not want more deregulation. The media is not about business competition, it is about the news. You are completely aware, through the media watchdog organizations, that journalists admit to being swayed in their decisions by the fact that they are owned by large corporations. We need to move in the other direction. You can't sneak this through. The public is becoming aware and elections are imminent.

Sincerely
Jerome Skyrud
